```java
public static void main(String[] args) {

        Deck a = new Deck();
        System.out.println("Display after DECK CONSTRUCTION \n" + a + "\n\n");

        a.cut();
        System.out.println("Display after CUT \n" + a + "\n\n");

        a.completeShuffle();
        System.out.println("Display after COMPLETE SHUFFLE \n" + a + "\n\n");

    }
```
